Produced using 85% renewable energy through a combination of wind and solar power.

Manufacturers limited lifetime warranty

Protects floors and carpets from chair caster damage

Phthalate Free formulation.

Ergonomic glide rolling surface.

Clear finish.

Slip and scuff resistant textured top surface

Choice of shapes and sizes

### Why choose a Vinyl Chair Mat?

- Protects all types of floors from chair caster damages, spills and scuff marks.
- Provides an ergonomic gliding surface, for caster based chairs, to reduce strain on the legs and lower back.
- Free of phthalates, tin, lead & cadmium. Safe for use around children or pets.
- Ideal for carpets, hardwood floors, laminate floors, floor tiles or stone flooring.
- Easy to wipe clean and maintain.

Gripper back Advantagemats provide protection and stability on carpeted floors, together with an ergonomic glide surface for caster based chairs.

Our smooth back Advantagemats provide excellent long lasting floor protection for all types of hard floors. The most durable PVC mats for the home or office.

Anti-Static chair mats are formulated to help prevent the build-up of static and dust that causes damage to electrical equipment.

Anti-microbial formulation to protect the product from microbial deterioration. (Fluoc active ingredient will not wash off or wear away).
